

## Online Job Projection

This application was built using an ODBC link to Sage 300 CRE in order to use job data already existing in the source system. A user selects a job in order to enter revised projections.

Current projects are displayed and the user can enter revisions on screen (hours, hourly rate, and/or dollars):

Original Estimate		Approved Changes	Revised Estimate	Actual Job to Date		Current Estimated at Completion (ECAC)	
Hours	Cost			Hours	Cost	Hours	Cost
33,006.00	5,438,715.13	\$85,946.40	6,024,661.53	35,560.50	5,479,868.98	34,814.06	5,360,959.97

Projected			Revised ECAC	
Hours:	Hourly Rate:	Dollars:	Hours	Cost
		0.00		
		0.00		
9.00	65.22		9.00	586.98

Projected			Revised ECAC	
Hours:	Hourly Rate:	Dollars:	Hours	Cost
		0.00		
		0.00		
9.00	65.22		9.00	586.98

A report displaying the updated projections can then be printed to obtain any necessary approvals.

The revisions can then be automatically emailed to Accounting personnel for processing:
